Memory and Storage Solutions

Convenient, affordable storage solutions for those who require additional storage.

Memory Solutions

Notebook memory solutions

Optimize your HP Business Notebook performance with HP memory. Random Access Memory (RAM) temporarily stores information from your operating system, applications and data that are in current use. This allows your processor to easily access the critical information that makes your programs run. More RAM allows you to run more programs simultaneously and makes it easier to toggle between programs.

1. Accidental damage is defined as physical damage to a product caused by or resulting from a fortuitous incident. Covered perils include non-intentional liquid spills in or on the unit, drops, falls and electrical surge. This includes damaged or broken liquid crystal displays (LCDs) or broken parts. Accidental damage protection does not cover theft, loss, fires, normal wear, consumables, intentional acts of damage, etc. For HP business notebook products, HP does not limit the number of qualified claims for the duration of the Care Pack agreement; for all other products, major parts replacement is limited to one major part per product per 12-month period commencing from the Care Pack start date for accidental damage protection coverage, major parts include but are not limited to the screen (LCD), dvd/cd-rom drive, motherboard, processor, hard disk drive and memory.

2. Service levels and response times for HP Care Packs may vary depending on your geographic location. Restrictions and limitations apply. Service starts at date of hardware purchase. For details, visit hp.com/go/cpc
